

STONAROMA

We carry the following:

“By combining two medicines, we make them stronger!

The Rock people hold the wisdom, and the plant medicine the healing. They are both Earth medicine. They strengthen each other.

By blending the two medicines, we create a third one more powerful than either one by itself.”

Strong Walking Woman, a Mohican who worked with Mikael to create our Native American Set.

When these centers function at full capacity, our center of enlightenment, our Crown Chakra, is open to full breadth, which connects us with all of the various aspects of our multidimensional God Self. In this balanced state, our power is always embraced with love and reverence for life, and our gift of free will is used properly." ---

THYMUS:Stones: **Opal, Quartz Crystal and Turquoise****\$33**

According to Archangel Michael, the Thymus is the energy portal of the Heart Chakra, where the light or energy emissions are experienced in their essence as Unconditional Love.

It is considered the master gland of the immune system The Thymus is a small gland located in the chest just under the breastbone. It is critically important in the body's response to disease invasion as white blood cells originate in the bone marrow. About half of them go directly into the bloodstream and tissue fluids, but the rest of them must pass through the Thymus gland which is a central figure of the immune system because of its primary role in processing these white blood cells into T lymphocytes.

This wonderful blend will help you know thyself and then act beyond knowing.
Apply 2 drops to the area between breasts.

"I must tell you that I personally, really love **Clear. It takes me to levels in the morning that remain with me all day."** Janis

I am loving all the oils that I had the pleasure of receiving from you and Mikael. The Stonaroma is absolutely wondrous for me. I had a major shift in incarnate soul aspects and the Stonaroma has made this shift happen with much more ease and grace than I had thought possible. All the oils will be my partners on my spiritual journey to Egypt and help me fulfill my spiritual service there. Blessings to you! Love and light, Deborah July 03

"I have used the Sinus and Immune Up during the past week on my 20 month old granddaughter who has had a really bad cold with high temperature. It seemed to help her recover from the worst part of the cold. She would come to me and ask me for the 'breathe' and 'mune'. Catherine
