

# OrgonAroma

## What are Orgones/OrgonAroma?

The term "Orgone" was coined by Wilhelm Reich who is generally credited with discovering how to work with this Life Force Energy. He was able to help many people mitigate their health challenges by using orgone energy. Orgone is a rather new technology but the universal energy has been here forever. The inner workings of orgone remain for the most part unknown to us at the moment.

Our "orgone" is a new **mixture of crystals, metallic particles suspended in an organic medium, under the pressure of resin.** This process enhances the electric, energy and vibrational frequencies. The energy ( Mana, Prana, Chi or Life Force) is needed by every life form on this planet in order **to sustain life.**

Orgone helps nature and us spiritually. All who have picked up the Archangel Michael OrgonAroma say "WOW!" They can feel his frequency. The orgonAroma is programmed to adjust to each person and gradually rise in frequency so that our growth is steady but with ease and grace. Everything around us has a frequency of 4 to 500. **Orgone frequency is 5000!** As the planet grows, it will go even higher.

We know that crystals in the presence of metal under the pressure of resin put out piezoelectric energy. But why that is and how it affects life and nature is not certain. Its effects may be easily observed by anyone taking some time to observe. The same effects are observed around the world by people who are "gifting" and using their orgone(s).

**OrgonAroma is adding pure essential oils to the product.** The pieces are anointed with oils while the oils will not be inside the orgone because heating evaporates their liquid properties, **so the vibrational frequencies are retained by the orgone.** OrgonAroma may be the "gift from the Universe" at this time, as our orgones are made and programmed to carry frequencies. Through dowsing, one can easily check their frequencies. In order to grow spiritually with greater ease and grace, it is great to have a gift from the universe that holds a higher frequency that allows our bodies to adjust to that frequency.

## Crystals are the solidification of the Divine Light Energies on the 3rd dimension.

When crystals are under earth pressure and in the presence of metals, they give out a refined piezoelectric energy, whereby electricity and sometimes light is emitted via compression. When they are brought to the surface and worked with, they still send forth the energy. But crystals in the presence of pressure, as they are in the earth, appear to put out a greater energy as that is the natural pressure that the crystals are used to when in the earth.

Orgone is crystals and metal under the pressure of resin and thus the pyroelectric and piezoelectric energy seems to be greater.

All crystals are harmonized from the God Source. It is only man's thoughts that have created disharmony.

As more and more people becoming aware of their own personal growth, (working in harmony with nature, giving respect and thanks to all life forms), crystals are opening their doors and working with man for the greater good of the whole.

Some crystals may work more synergistically together for a specific purpose.

Through dowsing and feeling one can see which crystals are meant to work together in the orgone for the highest good of all in alignment with the Divine Plan. It works 24/7 even while we go about our other tasks.

Communicate with the orgone. Tell it what to do. It loves to work and fulfill its destiny and help us to achieve ours! It is the deep respect and appreciation for all life forms (animate/inanimate) that makes these life forms feel safe in opening their world to us.

We are now learning to harness and work in harmony with crystal power for helping the planet and all life forms here. Nature has so many wonders to share. It appears that Nature is most willing to share especially when the respect and love of nature is present.

Often people say that they work with crystals and that is great. Yet crystals by themselves do not end droughts or transmute the negative radiations from the cell phone towers and other towers that we are surrounded by. Crystals in orgone do that. It seems that crystals reach more of their full power when in the orgone matrix.

## **What does this do for us?**

1. *Wonderful tool for spiritual growth*
2. *Helps to heal deep areas of our being (down to the nano levels). 'After lifetimes of negative thoughts and pictures, many layers need to be healed.' (paraphrased from the Goddess of Purity) Orgone really helps to heal these layers*
3. *Orgone puts out a tone*

**Personal experiences** "I have dowsed and arranged various pieces around my bed - some up higher and some lower. My intent is to create the harmony - musical and otherwise - that would allow me to heal more levels and continue to assist me to grow in every way - always with joy, ease and grace. Each morning I awake and am continually feeling better - have more realizations, greater depth within, feel clearer on an issue and many more things that are difficult to put into words. I am awaking with more joy and hope, more removed from the negative programming that we are still surrounded by in the world. I am so grateful for this "Gift from the Universe." *Donna Cercone, creator*

"With orgone we can literally create a temple in our home that holds the higher frequencies. So much more still to be learned about how to work and live with this magnificent energy. With orgone, we can create healing rooms and working with other people, we can check to see which orgonAroma is needed for them and create an atmosphere that holds the higher frequencies to do deeper healing. With orgone we can create gates to connect to the Angelic Realm easier." *Donna Cercone*

## AMAZING ORGONAROMA TOOLS

### Pyramids - \$44/66/88

Basically pyramids gather energy and direct it into the universe. They connect to other dimensions. Write out an intention and place it under the pyramid. The pyramid energy sends this intention out so that it can more easily be manifested. The OrgonAroma Pyramid is more powerful because of the coherent energy with it. One can also direct or point the pyramid anywhere on the body. A pyramid continually sends energy. If any area is hurting, point the pyramid there. And with the different oils in them, everything is amplified. It also attracts abundance and energies that are drawn to the different facets.

You could hold 2 medium pyramids together –back to back—and hold them in your hands. It is good for beginners –It can be hanged or move around. It will protect and clear. It goes beyond healing.

**Personal experiences:** “The Large pyramid with gold/burgundy/yellow – “Place in your left hand, at the base of index finger with the tip down. It shot the energy from my coccyx and up. **It can work on blood, heart,** reproductive organs, liver and spleen, or pancreas and gallbladder. It brings clarity to thinking. Can help you keep the Buddha smile!! No more than 15” at a time. The caramel/white serie helps with the ego. You hold it in both hands, tip down at the 5<sup>th</sup> chakra level. Could eventually help remove the veil! But needs a second piece for that.” *Svitlana*

“I felt the energy immediately when I came in. Really pleasant/different/hard to describe” *Tony*

“**The large pyramid Green/silver/Gold is for mystical experience,** it calmed me down. It was subtle and quieting. I got centered” *Mariko*

“I had stubbed my toes very badly against a wall and it felt like a toe was broken. Naturally the pain was severe. I quickly grabbed a small orgone pyramid and within 5 minutes the pain was almost gone. As I continued dressing, I placed a Total Balancer on my foot while standing. By the time I was finished, the pain was completely gone and I could put my shoes on and walk as if nothing had happened. I was amazed!” *CA*

## Connection to Source Harmonizer \$99 or Pyramid \$88/66/44/ or muffin piece \$35)

A "sigil" is a symbol created for a specific magical purpose. A sigil is usually made up of a complex combination of several specific symbols or geometric. **All of our Orgone Pieces contain the sigil "Connection to Source" in it. These are very powerful healing pieces.**for us and nature, our homes and everything around us.

It goes inside and shot up. The power of this Cone is something that we are just beginning to find out.

**Personal experiences:** "One woman, living in a rural area, saw a damaging storm coming toward her farm. She took the "Connection to Source" cone and pointed it towards the storm which split around her farm. Her area received only a gentle rain while areas around received far more damage."

"Another severe storm was coming through an area. This person had the "Connection to Source" Cone outside, plus Praise, Love and Gratitude. Mentally, she stood on the roof of her home holding the Cone and Praise, Love and Gratitude and sent those energies to the storm. Immediately the damaging part of the storm abated and only rain fell. 30 miles to the east, a tornado touched down."

" I realized that the wood in our home also had trauma energy in it. Most possibly the trees were never thanked before they were cut down and that most possibly everything in my home, the furniture, walls, concrete, all metal objects - everything was just taken with no gratitude or blessings given and all of these items were holding some trauma energy. Everything in my home now feels so much better."

These OrgonAroma pieces are programmed to work with the person that has them. If sometimes they feel too strong or one wants to process for a day or more, drape a nice cloth or scarf over them or put them in another room where it would still be working but not so directly.

## Divine Mercy gold, burgundy and grey \$99

All of the OrgonAroma have helped me grow tremendously, helped to clear old patterns, thought forms and areas from past lives. It has brought me into deep contact with the Ascended Masters, the Archangels and Beings fo Divine Light and Love, each piece generating aspects of the Divine and connecting with the Cosmic Life Force energy.

This energy is good to protect from electricity pole (EMF) and remove negativity.

## Divine Purity - \$99

It is the most powerful for deep spiritual work and helps each of us on the path of Ascension. For greater spiritual growth, Divine Purity is a requisite and it works beautifully with the Violet Flame and Healing the Inner Child.

".....there is only one thing in all Eternity that can open the Door for the Infinite Perfection of Life to come back into the use of a Life Stream that has turned away from the Light - only one thing can bring the Light that turns the individual back to the Perfection from whence it came and from whence comes all that is Good and the only Source there is of Peace and Happiness and Purity and Perfection and Victory.

"Mankind must be purified." "...that is why the Mighty Saint Germain brought the use of the

Violet Consuming Flame, so as many Life Streams as possible could turn to the Light at this time, understand Our Existence, accept Our Love and use It to purify the outer self , the Nation and the World." Excerpts from Elohim of Purity The "I AM" Discourses - Seven Mighty, published by Summit University

## Divine Victory - \$99

"When I created this piece and took the OrgonAroma out of its container I heard the inner words of:"They have finally done it! They have finally anchored Divine Victory on the planet! I felt this overwhelming sense of joy and celebration ringing throughout the universe. I felt all of the orgone created thus far shifted to a higher resonance. Everything was so much brighter and there was a celebration going on." *Donna*  
"It is very powerful if you place it on top of your skull. I felt sadness at first because if one team win, there is also a loser. So it brings us to the level of collective consciousness, by integrating the team that did not win." *Lana*

**Suggestions:** Placing orgonAroma cones in groups of 3 or more, exponentially increases their ability to work. It is the power of the Sacred Geometry, the power of working in 3's or more. Placing Divine Victory with the Inner Child and the Violet Flame is most powerful!

## Emerald Flame = Green Ray - \$99

"While holding the Emerald Flame Harmonizer, I could feel some deeper healing taking place. A friend saw the Green Flame go to the center of my being and what was not the Purity of the I AM Presence was literally being forced to the surface and Archangel Raphael and other angels were there with the Violet Flame to transmute these energies. I became the Green Flame."

### What is the difference between the Health harmonizer and the Emerald Flame?

The Emerald Flame is much stronger. They both work on same areas but some people may prefer the strength of the Health. They do not have the same things inside but they have similar qualities. The Emerald Flame turned out strikingly beautiful. If you work with the Health and Goddess of Liberty, the work will go so much deeper and easier.

## Goddess of Freedom - \$99 - Gold, Pink, Gold

A Hawaiian credits her Goddess of Freedom Temple for protecting her family and property on Oahu from a horrific thunder and lightning storm. The news broadcasts "many lightning strikes during storm. Thousands! Seems like it was non-stop for hours. I am so grateful for allowing me to host the temple."

Hold in left hand at the 5th chakra, close to the body, like in an altar. Read poetry, sing, repeat mantra, talk with voice. Wants to be upside down and hold it there for 30'. Be in tune with it. Trust conversation".  
*Svitlana*

"I created a temple with 6 of these, as I love Freedom. It is quite powerful." mba

## Health - Green, Blue or Burgundy \$99

They have a greater reach than the Total Balancers and bring the chaotic energies that are in the atmosphere into harmony and balance. Depending on the area one lives in, they may reach up to 1/2 mile, but in congested areas, it is much less.

Special programming brings these to a high frequency that aligns with each person receiving one. These are also programmed to continue moving up in frequency as the person, home, office or environment is ready to do so.

The Harmonizers are excellent to have in the home, office and outside. Many have one in each room of the home because of the positive feeling coming from them.

It is easier for students to study and think with them around. Many place them under their bed for its healthy benefits for the body. Some cannot sleep with that much energy and keep them in another room for the night. Some have them in a car because no matter where we go we move through much electromagnetic microwave radiations. By having some orgone in the car, we are helping all that pass by.

This energy continues to work with our bodies to achieve frequencies of balance and perfect health. And nature loves this energy also.

These OrgonAroma cones with their "Health Sigil" go to the weakest points in our bodies. Its main purpose is to strengthen the physical body and assist the whole person to remember what health is. It also works with the cellular structures to make them move active so that they absorb nutrients easier. The body can heal more naturally and be more energetic.

"The green one centers you. If you place it on the floor in between your feet, the energy will go right into your spine. If you swing around, it can balance your hips. I like to sit on a chair and hold Violet Flame in my hands. Just love the feel of those two." *Svitlana*

**Personal experiences:** "I had just purchased the Cone and kept it with me 24/7 had asthma. The longer I was in the presence of this energy, I noticed that the congestion in my lungs was leaving and I was able to breathe easier. I now sleep much better and do not have to take my inhaler in the evening as I can breathe so much easier. I am amazed!"

"I have so much more energy since I have had this Harmonizer. I can feel my body shifting to better health. The first night I had to move it out of my bedroom in order to sleep" *Mba*

for over 2 days. I have

## Blue or Burgundy \$99

## Heaven on Earth: \$88 on special – Violet, Grey, Gold, Green stone

The cone in the back - (with Pillar and blue Flame)

"Transform from little me on big Earth to me holding the Earth in my hand." ST

## Inner Child - \$99

This piece works deeply on all levels and brings matters gently to the front that need to be addressed and healed. It goes to the DNA levels. It helps to heal trauma and other woundings that we have been looking to heal. It not only heals the inner child but heal the places where we lost our innocence. It heals place where nature lost her innocence. Healing the Inner Child helps all aspects of life. Animals and nature also love it. Many unseen beings come to it for their healing.

It is as if the energy in this piece takes our hand and says: "Come, it is time to heal all." And helps us and everything around us to the next level of healing with much grace.

"At the beginning, I felt overwhelmed. Take time as it brings the experiences back to be healed. Stick to it as it will bring light in your soul. I saw a golden bowl?" Lana

**Personal Experiences:** "I had been sexually abused as a child and felt this deep sense of abandonment. Over the years I worked with many, many healing modalities trying to access those parts and heal. I was healing other areas but nothing touched the abuse and abandonment until I worked with the Connection to Source Orgone cone. I sat with this cone and felt the most incredible nurturing that I have ever felt. I could feel these areas in me finally healing. I sat with this Orgone piece for many days and reveled in the feeling of healing. I have it under my bed at night, one in my meditation room and office. I continue to work with it and "I sleep with this piece, go to work with it, meditate with it. I can feel it healing areas that I could not reach before." HM

The energy jumped at me when I came in. I lifted it and it was "Healing the Inner Child." Myra

## Kwan Yin – \$99 - Gold + Grey + Gold

It opens you to compassion first, and then enables you to reach out to others. -  
-- In the Buddhist tradition, Kwan Yin is one of the most respected deities. Also known as Quan Yin, Kannon (Japan), and Kanin (Bali), she is the embodiment of compassionate, loving kindness. Quan means to inquire or look deeply into, Shi means the world of people, or generations, Yin means cries.

As the sublime Goddess of Mercy whose beauty, grace and compassion have come to represent the ideal of womanhood in the East, she is often shown pouring a stream of healing water. With this water, devotees and all living things are blessed with physical and spiritual peace. She holds a sheaf of ripe rice or a bowl of rice seed as a metaphor for fertility and sustenance. The dragon, an ancient symbol for high spirituality, wisdom, strength, and divine powers of transformation, is a common motif found in combination with this Goddess.

As a true Enlightened One, or Bodhisattva, Kwan Yin vowed to remain in the earthly realms and not enter the heavenly worlds until all other living things had completed their own enlightenment and thus become liberated from the pain-filled cycle of birth, death, and rebirth. Kwan Yin counsels us by her actions to cultivate within ourselves those particular refined qualities that all beings are said to naturally possess in some vestigial form.

## Pillar of Fire - \$99

According to Dr. JJ Hurtak, as we close this millenium, these Pillars of Fire may come again. This is the Fire that does not burn and provides much safety for those who choose. When the Pillar of Fire Orgone piece was completed, Donna was amazed at the increase of Light frequency. I then "accidentally" placed 3 of them together and felt a tremendous increase in energy and stood for a while just basking in that energy. I remembered then that Jesus, Moses and Elijah came in a set of 3 and that many Masters of Light come in sets of 3. The triangle is also a very strong geometric design for construction. The power of 3x3 is used in some spiritual exercises.

One Pillar of Fire alone sends out beautiful energy but with the three together the energy was increased exponentially. Another felt the most incredible feeling of safety when around the Pillar of Fire .

We then became aware of the whales. One saw many whales literally jumping for joy for they now have some assistance in holding the energies connecting Heaven to Earth. They have been doing this for so long, have gone through much trauma and now there is assistance for them!

The Special Orgones are a most beautiful tool to bring the higher energies to this planet. These Harmonizers continue to rise in frequency as the planet does and greatly assists the planet and all beings on the planet who choose to ascend.

The Pillar of Fire has many potentials that we have yet to explore. As one enters into it, one feels the frequencies of "home", of safety, of unconditional love.

**Personal Experience:** "It is incredible for kidneys, as it gives them more space to move around, to ring or vibrate like a bell. Spread your legs, place your right hand on top; relax the body and start balancing your body; rock. Then switch arm at solar plexus level and rock backwards. When your body stops moving, stop." *LT*

This OrgonAroma is great for tremendous personal in-depth balancing, energy release.

Sigil is a symbol created for a specific magical purpose. It is usually made up of a complex combination of several specific symbols or geometric designs. All our orgonAroma are powerful healing pieces for everything including all nature/environment at many levels.

Great Central Sun and their energy is beautiful, powerful and very healing on many level.

We simply state the experiences people have had with Orgone energy, especially with the Orgone/Sigils combination.

## Pink Flame of Divine Love - \$99

This is the third Ray with Elohim Orion, spreading Love and Gratitude throughout the planet. Divine Love with dark pink is for universal FORGIVENESS, clearing of VICTIM mentality.

Personal experience: "Hold it on your right shoulder. Let go of the hurt. It clears the illusion that you are a victim of life. Start to give first, because after that you can receive." *Lana*

## Praise, Love and Gratitude 4 pieces for \$120.00

These 4 are the foundational pieces. If buying first time, - it is recommended to buy this one in combination with the others as they like to stay together.

Praise, Love and Gratitude energies are so important in the structure of healing for all life forms. Get one set for outside for nature and one set for inside. When orgone is in the car, it brings the healing energies to every area that we drive through. Place these pieces on a map of any area that needs assistance. Place your intentions under these pieces. Keep these pieces under the bed so that the body is filled with these energies each night. Always keep Praise, Love and Gratitude around and this will also balance and carry us through while we are resting, as Orgone

brings harmony and balance back to Nature!

**Personal Experiences:** "Those muffins size do not look great, but they have a huge energy as they work vertically as well as horizontally. They are clean, pure energy. We are that source. Great if you attend a conference or meet a group of people. If you are into Feng Shui, they can lighten up corners. Add a candle and put them on your altar" *Lana*

"I now have praise, love and gratitude OrgonAroma pieces in my car, in my home, under my bed and outside in my yard. It is amazing to feel the power of these pieces in their gentleness."

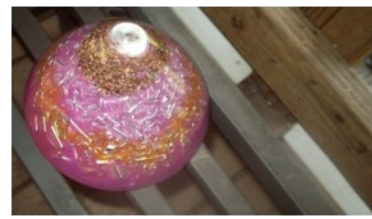

"I had made these 4 pieces and I needed to go across town and only gratitude was done. We had not had any rain for 3 months and it was early spring and hot outside. There were no clouds in the sky no matter how far one looked. There had been no clouds for days on end. I was holding "gratitude" in my hand, marveling at how gentle the energy was and I looked up and almost right above me was one cloud. I was shocked. I could feel the cloud responding to the energy of "gratitude. I continued driving and saw another cloud and then another and could feel the tremendous joy in the clouds in their response to the energy of gratitude. Within 10 minutes, the whole sky was full of clouds and I was most, most amazed! Back at home, love and praise were done. I placed all three pieces outside with a deep love for nature and a call for balance and harmony. Within one hour rain clouds appeared and that night it rained for the first time in 3 months!!!!" *Donna C*

With Praise, Love, Gratitude and Connection to Source, hail storms disappear, damaging storms dissipate and beautiful rains come instead or if no rains are needed, the balance comes to nature. Nature thrives in the presence of Orgone!

The adamantine particles that make up life and the elements will always respond to praise, love and gratitude first. As their energies free the elements from their "prison" or imposed negativity and they are so grateful for their freedom.

## Ruby Flame of Divine Grace, Peace, Devotional Worship - \$99

While creating the White and Yellow Flames, I distinctly heard the following: "Now that the Flames are starting to be anchored here, this opens the door to Legions of Angels being able to come to the Earth to assist so much more!" So let's call on those Legions of Angels to help over the whole US and world and ask them to be storm damage.

over every area to prevent so much

Our own I AM Presence is surrounded by all of the Flames and it is stated that before Earth fell into the lower frequencies - it was a place where souls would come to learn about each Flame and each Flame would be emphasized for about 2000 years. You can see the Flames in the picture below in the aura of the I AM Presence.

### Sanat Kumara, and Saint Initiations of The Ruby Ray

I, Sanat Kumara, along with many cosmic masters have been preparing many of earth's sentient beings for the Saint Initiations of the Ruby Ray. The Ruby Ray and those on this path—embodying this frequency—are critical in maintaining balance, harmony and peace on earth. Particularly, as earth and her/his sentient beings go through the ascension processes of purification and resurrection. The Saint Initiations can be understood as a frequency of the Ruby Ray. It entails a mastery of remembering and embodying to its fullest, the magic on earth, so these ascension processes may occur with greater ease, grace, love and joy. Miracles will be a common occurrence for those who are already on the path of the Ruby Ray. For now I would like to turn your focus on the ways the gifts of the Saint Crown Initiations may serve you and herald in the coming Seventh Golden Age.

For the 2011 Spring Equinox it has been decreed by cosmic forces that the earth's saints will have substantially more authority, than ever before, to work in unprecedented ways in the physical realms. This decree has been rendered to help the first group of untouchables begin to master the power of becoming an untouchable, where the manifesting of "miracles" are common occurrences. In these initiations, the saint will aid a mastery of focus and concentration, and a greater understanding of how one co-creates their reality.

Everything that is in the physical comes from one's consciousness. Those who are undergoing the Saint Initiations will be teamed up

with a saint who will literally sit on their crown chakra for a greater merger with their own personal mighty I Am Presence. This mastery will be a joyful one. So rejoice because the Sainted Crown Initiations will be a gift for all of earth and her sentient beings. [www.AnointingProducts.com](http://www.AnointingProducts.com)

## Yellow Flame Of Wisdom - \$99

**Purpose:** Helps awaken all the cells of our body, connects us with our Higher mental body, higher Self and to Source, (I AM Presence) and teaches our cells Divine wisdom.

**Benefits:** Helps: - nature and all life forms. - our cells become educated to Divine Wisdom. - generates aspects of the Divine and connects with the Cosmic Life Force.

My heart opened and coming home to Divine Love, and understanding the connection with Divine Wisdom. I felt so nurtured and supported. I felt so much Peace within my body fields. I WAS HOME." DC

I have had many wonderful and beautiful spiritual experiences with OrgeonAroma and this has to be the most powerful and beautiful yet. And maybe the other pieces prepared the way, I am not sure.

A friend just held it and said: "I have to have this as it is going through my whole body. When you held the Emerald Flame, I saw you literally become the Green Flame. It was at the very core of your being. It is most beautiful and most, most healing!!"

**Clairvoyant observation:** "When you were holding the Flame of Wisdom, I saw you connected to your Higher Mental body, your Higher Self and it goes beyond that. I see the Flame of Wisdom (in your brain) healing areas of your brain and all that is around you and in you, in every cell of your body" (mitochondria and DNA).

## Hearts - \$47 - Red, Peach, Purple ( perfect for meditation)

The OrgeonAroma hearts are filled with crystals and programming that assist in opening our hearts to Love, (love of ourself and all the many loves that enhance our lives).

People love to just hold the pieces or have them around. It can be used as a paper weight in an office, while generating much positive energy for the office or wherever it is placed. Many have found this piece to be most beneficial for working with joints and other areas of discomfort. It is an excellent piece to have in the rooms of children. — **Good gift for someone recovering from a loss.**

**Personal experiences:** "I gifted some to children who lost their mom as it was their favorite piece. Even the 9 year old boy wanted one". Mba

## Roses (red, purple or peach) - \$48

Roses have been a message of love throughout the ages. These work with the Honor Flame from the Great Central Sun and their energy is beautiful, powerful and very healing on many levels. The red is to take stress out; watch a sunset. Very peaceful. "The peach if for uplifting. 3 to 5' before you go out for some fun, creativity"

## Total Balancers Pocket size \$28 or "Muffin" size \$35

They may look small to you but are powerful. They have same energy as the big pieces. These pieces will help anyone on any level of growth. Our inner work is much like eating or being in the sun, we do some and then digest. A flower does not bloom immediately, it grows into a bud and gradually opens. Find what is appropriate and continue to build until you have the frequencies around you that you desire. After a while, one becomes "acclimatized to the orgone energy" and may feel that it is not working. Yet a greater and greater sense of well being is present in the entire environment and within our bodies. When one goes into an area that has not been "orgonized" then one realizes how great it feels to live in the "orgone zone."

Create a gentle, consistent pattern of working with them, not a stop/start pattern. Any work with these pieces will help but to obtain the maximum benefit, work with them consistently and gently. There are many levels and layers within us that need assistance or healing that we may not be conscious of. These do not have sigils in them, but are critical for nature in conjunction with Love, Praise and Gratitude Set.

**Disclaimer:** We make no claims for any healing and use the word healing as a generic word. If you have any problems, seek the advice of your physician or other qualified health provider. Orgone is an energy much as sunlight is an energy and just as the sunlight affects us and all life, so can the orgone energy.
